ROC

Room Operations Center

Keeping your guests happy and delivering the level of service they expect can sometimes be a challenge, especially when every interaction is a chance to delight them… or, leave them frustrated. In order to help alleviate these challenges and drive operational efficiencies, we've made it our priority to define the future of connected spaces by providing next generation in-room solutions.

Evolve has developed a flexible, highly intuitive platform that combines intelligent in-room controls with simple to use cloud-based software to create memorable guest experiences while reducing costs. This platform is known as ROC, or Room Operations Center.

ROC is a hosted solution that gives you the ability to centrally manage the guest room experience across all of your properties from any web-enabled device, including mobile phones, tablets, and computers. It's secure and reliable, providing unparalleled flexibility to meet your specific needs.

Its scalable architecture provides sustainable and environmentally friendly solutions to help guide your technical road map, solving today's needs and tomorrow's problems. ROC adapts to meet the business requirements of any property and naturally grows as those requirements continue to change.

Discover how your business can benefit from ROC today.

Evolve ROC gives you the power to:
