

Receptacle

Standard installation. Advanced control.

Turning the bedside lamp off while still charging your phone is as simple as pressing a button. With an Evolve receptacle, one side is controlled and the other side is always powered on.

FEATURES

- Controlled side of receptacle can be used for 15amp loads—lamps, appliances and electronics
- Non-controlled side of receptacle provides constant power
- Tamper-resistant plugs
- LED display option allows the green LED to be turned OFF
- Local and remote ON/OFF control of connected loads
- Screwless design
